➤ 8 ~ 17 Apr: Team Warm up

➤ 18 Apr ~ 24 Apr: Plan and Document

➤ 21 Apr: Idea Presentation Session (1 hour 15 min)

➤ 25 Apr ~ 1 May: Pre-sprint

➤ 2 ~ 15 May: Sprint 1

- 8 days (sun – sun): Development
- 6 days (mon – sat): Code Review & Revision, Document

➤ 16 ~ 29 May: Sprint 2

➤ 30 May ~ 12 June: Sprint 3

➤ 13 ~ 15 June: Wrap up

➤ 16 June: Competition

# Evaluation

- Development
  - Evaluate Performance & Reliability by competition
- Tests
  - Evaluate Unit Tests, Regression Tests, ...
- Code Review & Revision
  - Evaluate Github Activities
- Documents
  - Requirements and Specification
  - Design and Plan

# Development Management

- When you fail to complete the planned development for the current sprint
  - You should split the development plan into two and complete the first
  - The first version should be a working program with less functionality or performance
  - Revise the documents accordingly
